tion of a country or a people. It will be the end of the Zionist regime and liquidation of Zionist leadership in Palestine but no harm will ever befall the ordinary Jewish men and women. Even the illegal Jewish immigrants like Mr. Comay will be given the chance to be repatriated to the countries of their origin. When the Nazi regime was terminated in Europe, the German people were not exterminated. And this would be the case in Palestine.

9. As representatives of the Palestine Arabs we would like to draw the attention of members of the Security Council to the fact that the Zionist pressure groups in the United States and the United Kingdom are launching a campaign of political pressure and brain-washing propaganda through all medias of communication. Members of the British Parliament, U. S. Senators and Congressmen have been recruited in London and Washington to wage this pressure campaign. Zionist stooges are asking the Western powers to enter into a mutual defense pact with the aggressors, looters and robbers to confirm and protect their aggression and stolen loot. The Palestine Arab people have not lost faith or hope that the British and American people will awake in time to counteract this Zionist pressure. The Zionists are working for war and aggression and want to drag the Western powers and the whole world into war.

The Western powers must take full blame and responsibility for Zionist irresponsible actions because it is their political, financial and military assistance to Zionists which made it possible for them to commit and continue this Zionist aggression and illegal occupation of Palestine. Western policy has not been conducive to justice, peace and stability in the Middle East.

We earnestly hope that the Western powers and particularly the United States and United Kingdom will resist Zionist pressure and will withdraw all aid from the Zionist aggressors and their aims of kindling war of aggressions in the Middle East.

Permanent Representatives of The Palestine Arab Delegation.

## Arab Ghettos in Israel

**Haboker** newspaper in its 1-23-1954 issue, reported that **Msgr. Antonio Fergani,** Bishop of the Catholic Church in Israel, had stated:

**"The condition of the Arab minority in Israel is very wretched. Unemployment prevails among them. I do not hesitate to state that the Israeli Government is solely responsible for the prevalence of this unemployment, as in no other country in the world are there similar laws prohibiting a citizen from searching for work to earn a living."**

The same newspaper in its 2-6-1954 issue, published a speech delivered by **Msgr. George Hakim,** Catholic Archbishop in Israel, in which he said: **"The Arab Christians are dissatisfied with the cruel treatment to which they are subjected by the Israeli Government. A great number of the buildings and lands which belong to the Christian churches have been confiscated."**

Archbishop Hakim also stated in **Arrabita Review,** which is published in Nazareth, a list of 198 Arab villages which have been destroyed by the Jewish authorities.

**Haaretz** newspaper in its 4-5-1954 issue stated that **the persecution of the Arab minority in Israel has made a large number of the Arab population incline to communism.** This was evident in the last municipal election at Nazareth.

The Israeli authorities went so far in persecuting the Arab minority as to enact special laws affecting their civil and religious affairs, especialy with regard to Moslems, which laws contradict the teachings of Islam. Among these laws are those requiring Moslem women to serve in the Israeli Army and to have their photographs affixed to their identity cards. Moreover, Israeli laws interfere with Moslem conventions of marriage and divorce and with other religious rites.

**Kolhaam** newspaper published in its 2-26-1954 issue an article in which it said that **the Arab minority in Israel is being forced to live in a "ghetto" which is much worse than the ghettos the Jews used to live in.** The paper further stated that **most of the Arab population in Israel is unemployed and suffer from the low standard of living imposed upon them.**

**Mr. Ronald Peretz,** a senior official of the Israeli Ministry of Foreign Affairs, prepared a pamphlet, which was published last spring by Middle East Journal Co. of New York, in which he stated that **the Arab minority in Israel feel they are persecuted and that some of the Jewish population are aware of this persecution, but those conscientious people have to keep silent owing to the pressure of the Israeli Government.**

Another piece of evidence of the persecution of Arabs in Israel can be taken from the following article which was written by **Maaref** in its 3-14-1954 issue. The writer said: **"Come my daughter, with me to Galilee. Do you see these wide plains and these demolished villages? These villages and plains were once inhabited by tens of thousands of people, but we have usurped them from their rightful owners by devilish ways. The lands of the few Arabs who remained in Israel have also been usurped by us, notwithstanding the fact that our courts have ruled that the Arabs are the legal owners of those lands. But the Government has ignored the decision of the courts, and has expropriated those lands and allotted them to Israeli leaders. My intention is to let you see the lands which were the abode of prophets and the places where brotherhood was bred. I feel ashamed to look the Arab in the face as I do not like to be counted one of the thieves of night. We have not reached the end of our dispute with the Arabs and I am worried about your future, my girl, as it is you who will have to pay the price. Do you see, my girl, this Jewish settlement which was founded on an usurped land?"**

The Tel Aviv paper **Haaretz** condemned the imposition of military rule on Arabs in Israel. The following is quoted from an article published in the paper's issue of 1-14-1955, No. 10774: **"An Arab in Israel is not permitted to leave his place of residence without a written permit from the military authorities. If he disobeys instructions he is presented for military trial, involving punishment. Suspect Arabs only should be restricted in their movements, for there can be no justification whatever for the present system of travel permits applied to some parts of the country."**

**NOTRE DAME CONVENT BOMBED BY ZIONISTS**

**Zionists ransacked and looted the Church and Convent of Notre Dame. They broke open the Holy Tabernacles and stole the gold and silver chalices. Crosses were smashed and trampled on, sacred altars were desecrated, and the Holy Sanctuary used as a dance hall for Jewish soldiers and their girls.**

**BEHIND COMMUNISM STANDS THE JEW**

**Premier Khrushchev and his wife paid a rare final tribute to an apparent companion of their youth by leading the list of signers of a black-bordered death notice in Pravda for Lev Abramovich, the former Jewish director of a Communist Party training school.**
